## Venue Information & Travel Notes

### Clothing

BC weather can be unpredictable. Athletes and staff should plan for the worst each day and prepare with rain gear and cold weather gear.

### Cell Phones/Data

Cellular rates for both voice and data tend to be a bit higher in Canada than other parts of the world, and roaming charges even more so. It is recommended to turn off your data service and limit calls. Check with your mobile carrier for details regarding your plan.

### Cash/Credit/Debit

Like most parts of the world, cash is still accepted everywhere. For US visitors, consider changing some money into Canadian dollars for your visit. Credit cards can be hit or miss. Most establishments take all credit cards, but a few require CHIP cards, not swipe cards. These establishments will not accept a swipe card that is traditional in the US. Check before you buy. Debit cards only work if they have been issued by a Canadian bank.

### Directions

Many US GPS units do not have very accurate Canadian maps. Check if map updates are available for your GPS. The GPS on smartphones are accurate, but will carry a heavy data charge. Regardless of GPS, please always follow the directions given in this Tech Guide. GPS units do not know where you are to park or what roads the race has closed.
