Notes about Categories

The purpose of these competition categories is to make the event fair and accessible to all riders. There are no limitations on riders competing in a higher category to what they are eligible for – in fact, we encourage competitors to push themselves to compete in the highest category possible. The goal of these rules is to ensure that we do not have “sandbagging” – riders deliberately competing in the lowest possible category to gain an unfair advantage or easy win. The event judges will have discretionary power to alter the category of any competitor if they believe that they are acting against the spirit of the competition and outside of good sportsmanship.

3 Event Format – Canadian Championships

Each Category of the event will have a set number of Rounds of Competition.

Each Round of Competition will follow the same format:

- Riders will be broken up into Heats of 4 at random to perform their runs
- Riders given 2 x 1min Runs for Elite on the course
 - A run is determined by the judges confirming the rider is ready to start, the clock starts when they drop in. (A timeclock will also be displayed)
 - A buzzer or whistle will sound at the end of 1 min. Any tricks not completed within this time will NOT count to the score.
- The Judges will score each run individually according to the Judging Criteria outlined below
- The Highest scoring run will count to the riders final placing in that Round of Competition
- The next score is only used in situations of a tie – where 2 x riders have an identical highest run score, the winner will be determined by who has the higher 2nd run score.

3.1 Amateur (7-14) Competition Format

Made up of one Round of Competition. The results of this Round will be the final placings.

Riders will be given 1 x 45 second runs.

3.2 Amateur (15+) Competition Format

Riders will be given 2 x 45 second runs

3.3 Amateur (30+) Competition Format

If there are less than 15 x Entries, there will only be 1 x Round of Competition.

During Qualifying, Riders will be broken into Heats of 4 and running order will be chosen at random.

If there are more than 24 Entries:

The top 16 Competitors from Qualifying will progress to Semi Finals

In the Semi Finals, Competitors will be broken into Heats of 4 x 4 rider heats I. Running order will be ascending from 16th Place.

If there are less than 24 Entries, there will be no Semi Finals.

Final Competition Round will take the top 12 scorers from the previous round.

They will compete one final time in reverse qualifying order.

Final Scores from this round will determine the event winners.

3.4 Judging Criteria

The performance of each rider is judged on overall impression including, but not limited to:

- | | | |
|---------------|-------------------------|---------------------|
| - Difficulty | - Style | - Landings |
| - Height | - Consistency | - Use of the course |
| - Flow | - Variety of tricks | - Execution |
| - Originality | - Control of the tricks | - Progression |
| - Versatility | - Bike control | |

The overall composition of the runs is most important as the judges evaluate the sequences of tricks, the amount of risk in the routine, and how the rider uses the course. The judges take errors such as falls and stops into consideration.
