## **CROSSROADS TREMBLANT BIKE FESTIVAL FORCED TO POSTPONE THE EVENT TO MAY 2022**

Mont-Tremblant, Qc, March 25, 2021 – As of today, the Crossroads Tremblant organization continues to follow the evolution of the situation related to COVID-19 while the Laurentians region remains a red zone. As the maximum alert level's restrictions are still in effect and the hosting of major events and gatherings remains prohibited, **the organization is postponing the Crossroads Tremblant Festival to May 2022**, including all its activities: The Gran Fondo Mont-Tremblant, the mountain bike Quebec/Canada Cups as well as the Gravel Fondo.

"In the absence of specific timelines for the return to normal activities and given the complexity of organizing an event of this magnitude, we are forced to reschedule once again," said Simon St-Arnaud, producer of the festival. "Cycling continues to become more and more popular in the region. This is why, in collaboration with our host partner, Tremblant Resort, we want to continue to organize cycling events and we are optimistic that we will be able to reunite safely for the 2022 season."

Participants registered for an event at the 2020 edition will find the credit and refund policies [here](#).

We take this opportunity to wish both new and experienced cyclists a great season on the bike and we look forward to seeing you in person at the 2022 edition of the Crossroads Tremblant Festival.
